

### AREAS OF CONTROL OF SAMSA PRINCIPAL OFFICERS AND REGIONAL MANAGERS

ALL SAMSA PERSONNEL, SHIP AGENTS, PORT AUTHORITIES, SHIP OWNERS, SHIP MANAGERS, SEAFARERS AND OTHER INTERESTED AND AFFECTED PARTIES

<b>ISSUE DATE</b>	27 May 2021	<b>EXPIRY DATE</b>	26 May 2022 or unless withdrawn	<b>REFERENCE</b>	SM6/5/2/1/MIN
-------------------	-------------	--------------------	---------------------------------	------------------	---------------

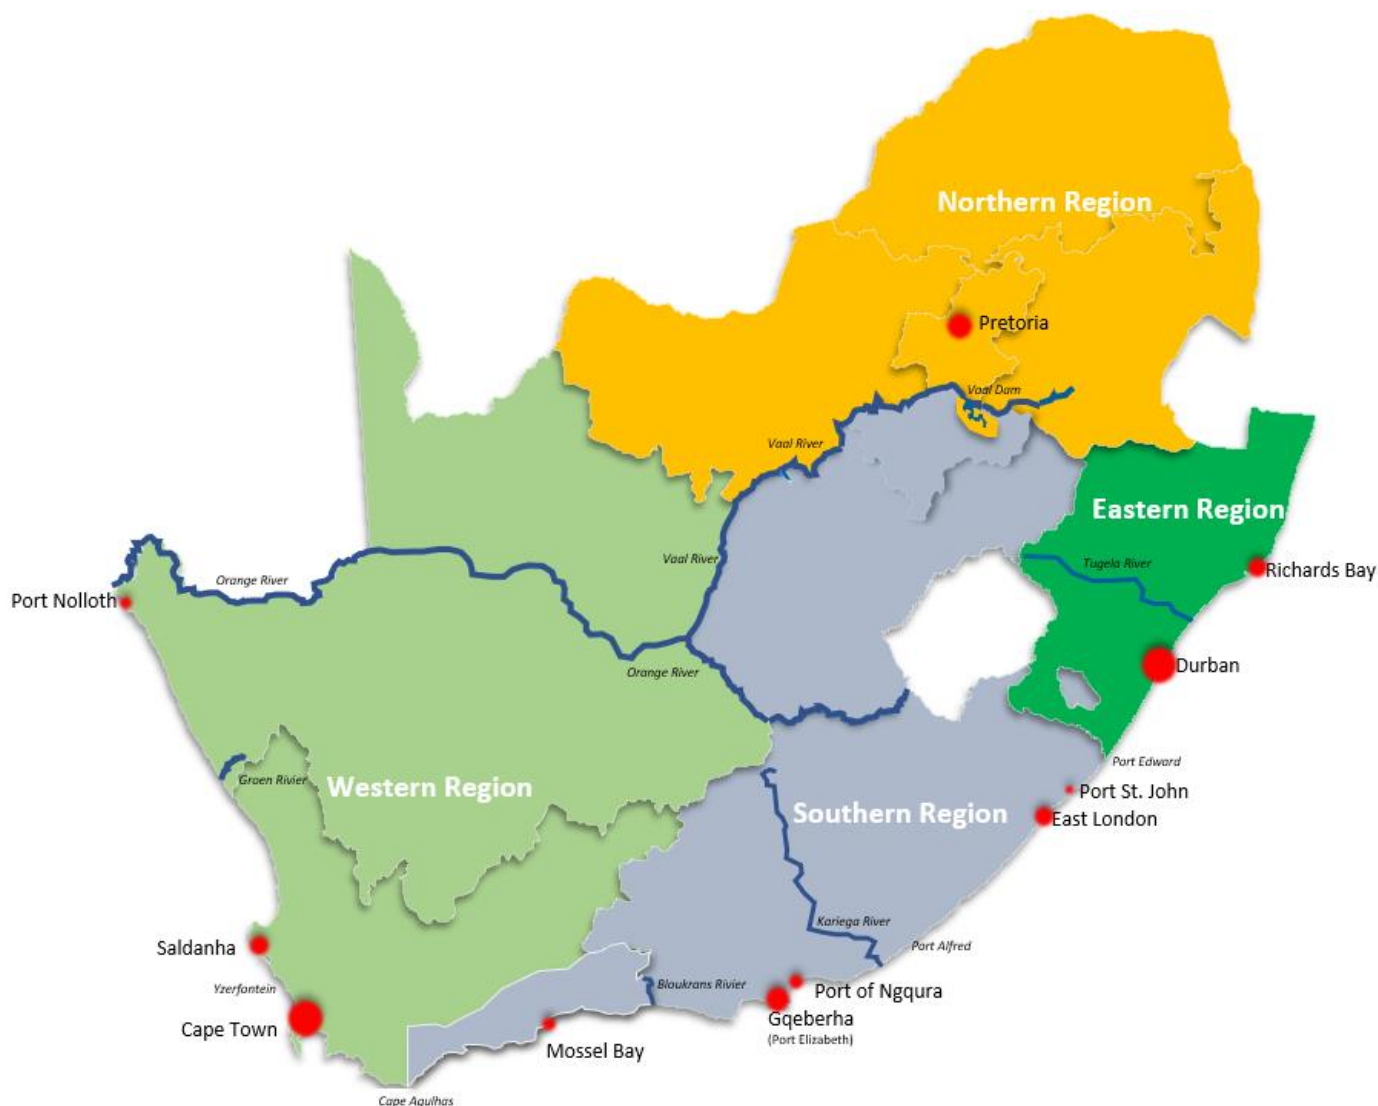

#### Marine Information Notice's and /or Marine Notice's affected

<i>Cancelled or superseded:</i>	MN 3 of 2008 / MC 2 of 2018	<i>Read in conjunction with:</i>	MN 13 of 2011
---------------------------------	-----------------------------	----------------------------------	---------------

#### SUMMARY

This Marine Information Notice establishes the coastal and inland areas of control of Principal Officers and advises the general public accordingly.

#### 1) Map of SAMSA Regions and offices

## 2) Sea and tidal waters

For all matters relating to sea and tidal waters, i.e., surveys and inspections for convention vessels, survey and inspection for port operation vessels, surveys and inspection of small vessels/boating, OPL's, STS and offshore bunkering, accreditation of training institutions/facilities, reporting of incidents/casualties or any other service which falls within the ambit of SAMSA, the Principal Officer whose area of jurisdiction it is, as detailed in Table 1 is to be contacted.

## 3) Inland waters

With the exception of the Northern Region, all other regions have more than one Port Office.

Services on all inland waters are usually provided by Authorized Agencies. External appointed SAMSA surveyors are restricted to designated areas as indicated on their appointment letters and should only survey sports and recreation boats in their designated areas.

In cases where SAMSA is requested to provide services, the following will apply:

- Area of responsibility;
- Availability of resources;
- Distance of port offices from dams or rivers (especially in the case of Mossel Bay situated in the Western Province but report to the Southern Region).

Table 3 lists the dams and the responsible port office.

A map created by the then Department of Water Affairs and Forestry in 2007, showing the dams per Province where recreational or other forms of boating activities are taking place, as well as those dams with potential for such activities can be accessed by clicking on the following link:

[Map of RSA Dams used for Boating](#)
